Data Dumps

Last updated about 7 hours ago

[Revision history](#)

To meet the requests of archivers, statisticians, and data analysts alike, Derpibooru provides data dumps on a nightly basis. These data consist only of publicly accessible database contents. These dumps are provided in `pg_dump`'s custom format, and are created using latest PostgreSQL 17.x.

To load an entire dump (requires 45 GB of free storage):

```
dropdb --if-exists derpibooru
createdb derpibooru
pg_restore -O -d derpibooru derpibooru_public_dump_2026_08_13.pgdump
```

This will create the database `derpibooru` with the following table layout:

public.artist_links

Name	Type	Nullable?
id	bigint	
user_id	bigint	
tag_id	bigint	✓
url	text	✓

public.badge_awards

Name	Type	Nullable?
id	bigint	
user_id	bigint	
badge_id	bigint	
created_at	timestamp	
label	text	✓

public.badges

Name	Type	Nullable?
id	bigint	
title	text	
description	text	
image_url	text	

public.comments

Name	Type	Nullable?
id	bigint	
image_id	bigint	
created_at	timestamp	
updated_at	timestamp	
user_id	bigint	✓
body	text	

public.duplicate_reports

Name	Type	Nullable?
id	bigint	
image_id	bigint	
duplicate_of_image_id	bigint	
created_at	timestamp	
updated_at	timestamp	

Name	Type	Nullable?
user_id	bigint	✓
state	text	
reason	text	✓

public.forums

Name	Type	Nullable?
id	bigint	
topic_count	bigint	
post_count	bigint	
created_at	timestamp	
updated_at	timestamp	
name	text	
short_name	text	
description	text	

public.galleries

Name	Type	Nullable?
id	bigint	
thumbnail_id	bigint	
user_id	bigint	
image_count	bigint	
created_at	timestamp	
updated_at	timestamp	
title	text	
spoiler_warning	text	
description	text	

public.gallery_interactions

Name	Type	Nullable?
image_id	bigint	
gallery_id	bigint	
position	integer	

public.image_duplicates

Name	Type	Nullable?
image_id	bigint	
target_id	bigint	

public.image_faves

Name	Type	Nullable?
created_at	timestamp	
image_id	bigint	
user_id	bigint	

public.image_features

Name	Type	Nullable?
image_id	bigint	
created_at	timestamp	

public.image_hides

Name	Type	Nullable?
------	------	-----------

Name	Type	Nullable?
image_id	bigint	
reason	text	

public.image_intensities

Name	Type	Nullable?
image_id	bigint	
nw_intensity	float	
ne_intensity	float	
sw_intensity	float	
se_intensity	float	

public.image_sources

Name	Type	Nullable?
image_id	bigint	
source	text	

public.image_taggings

Name	Type	Nullable?
image_id	bigint	
tag_id	bigint	

public.images

Name	Type	Nullable?
id	bigint	
created_at	timestamp	
updated_at	timestamp	
image_width	integer	
image_height	integer	
image_size	integer	
comment_count	integer	
score	integer	
favorites	integer	
upvotes	integer	
downvotes	integer	
hides	integer	
image_aspect_ratio	float	
user_id	bigint	✓
hidden_from_users	boolean	
image_mime_type	text	
image_format	text	
image_name	text	
version_path	text	
image_sha512_hash	text	✓
image_orig_sha512_hash	text	✓
description	text	✓

public.posts

Name	Type	Nullable?
id	bigint	
topic_id	bigint	
created_at	timestamp	
updated_at	timestamp	

Name	Type	Nullable?
user_id	bigint	✓
body	text	

public.source_changes

Name	Type	Nullable?
id	bigint	
image_id	bigint	
created_at	timestamp	
updated_at	timestamp	
user_id	bigint	✓
new_value	text	

public.tag_aliases

Name	Type	Nullable?
tag_id	bigint	
target_tag_id	bigint	

public.tag_change_tags

Name	Type	Nullable?
tag_change_id	bigint	
tag_id	bigint	
added	boolean	

public.tag_changes

Name	Type	Nullable?
id	bigint	
image_id	bigint	
created_at	timestamp	
user_id	bigint	✓

public.tag_implications

Name	Type	Nullable?
tag_id	bigint	
target_tag_id	bigint	

public.tags

Name	Type	Nullable?
id	bigint	
image_count	bigint	
name	text	
slug	text	
category	text	✓
description	text	✓
short_description	text	✓

public.topics

Name	Type	Nullable?
id	bigint	
forum_id	bigint	
post_count	bigint	
view_count	bigint	

Name	Type	Nullable?
created_at	timestamp	
updated_at	timestamp	
sticky	boolean	
locked	boolean	
title	text	
slug	text	

public.users

Name	Type	Nullable?
id	bigint	
name	text
